mob.: +7-771- 4377079

work: +7172 70-95-00 (34-212)

Scientific degree, title, scientific school:

Doctor of Philosophy (PhD) with a degree in Mathematics

Scientific interests:

E-learning, e-learning standards, distance learning; scientific publications in the areas of "group theory and computability"

Research Grants:

From 2012 to 2014 participant in the scientific project "General Computability of Models and the Complexity of Computing", contract No. 976 of 03/02/2012;

From 2015 to 2017 - Junior Researcher, KazNU. Al- Farabi EKSTU, performer of the research work "Algorithmic and model-theoretic properties of algebraic structures" under the project of the Ministry of Education and Science of the Republic of Kazakhstan, 3953 / GF4;

Education:

2014-2017 - Doctoral Ph.D. student, D. Serikbayev East Kazakhstan State Technical University, Specialty 6D060100 Mathematics 2012-2014 – Master student, D. Serikbayev East Kazakhstan State Technical University, Specialty 6M060100 Mathematics

1998-2001 – postgraduate study of the D.Serikbayev East Kazakhstan State Technical University, Specialization: 060100 - Algebra and Mathematical Logic.

1993-1997 – higher education, East Kazakhstan State University, Faculty of Theoretical and Applied Mathematics, Specialty "Mathematics"

Professional experience:

2018, September – present - Associate Professor of the Department of Information Security of the Information technologies faculty, L.N. Gumilyov National Eurasian University;

2001, September – 2018, August– Senior Lecturer, Department of Higher Mathematics, D. Serikbayev East Kazakhstan State Technical University, Ust-Kamenogorsk; 1998, February-1998, September – trainee research intern, Department of Higher Mathematics, D. Serikbayev East Kazakhstan State Technical University, Ust-Kamenogorsk;

1997, August-1998, February – teacher of mathematics, computer science at the regional Kazakh lyceum in Ust-Kamenogorsk

Delivered courses:

Cryptographic Protocols, Methods and Means of Information Protection

Publications (selected):

1. Konyrkhanova A.A., Khisamiev N.G., Romankov V.A. Retracts, algebraically and verbally closed subgroups of finitely generated nilpotent groups. Siberian Mathematical Journal. T.58, No.3 (343), pp.686-699

2. Konyrkhanova A.A. Universal elements of groups of unitriangular matrices over a field, Bulletin of the Omsk University, 2015, No. 4 (78), pp.18-20.

3. Konyrkhanova A.A. Universal elements of groups of unitriangular matrices over a ring of integers, Bulletin of the Omsk University, 2016, No. 2, pp.11-13

4. Konyrkhanova A.A., Nurizinov M.K., Tyulybergenev R.K., Khisamiev N.G. Retracts of a group of unitriangular matrices over a ring. // Bulletin of KazNU. Series mathematics, mechanics, computer science. 2016, No 3 (91), pp.32-44

5. Konyrkhanova A.A., Romankov V.A. On the solvability of commutator equations in Lie algebras. Bulletin of the Karaganda State University. Mathseries. 2017, No 1 (85), pp. 57-64 6.A.A.Konyrkhanova, N.G.Khisamiev. Universalel elements of unitriangular matrices groups. Bulletin of the Karaganda State University. Series of mathematics., 2017, No. 1 (85), pp. 57-64
