

## FINAL CONFERENCE ON THE RESEARCH PRACTICE OF DOCTORAL STUDENTS

On April 14, 2022, the final conference on the research practice of 2nd-year doctoral students with presentation of presentation materials on an interactive whiteboard was held in the CISI building, in auditorium 338 at the Department of Management and Engineering. Diaries and reports of doctoral students were also accepted.

Doctoral student Bitmanov E.Zh. displays the main results of research practice.

The final conference was attended by the presenters: responsible for practice, PhD Kobetaeva N.K., as well as members of the commission, Associate Professor, PhD Daribai A.O., Acting Associate Professor, PhD, Zandybai A., profesor, PhD Akbayeva L.H., Professor, PhDn. Abzhalelov A.B.

Doctoral student Laura Boluspaeva displays the timeline and results of her research on the slide.

The final conference was held in an offline format in 338 audience. At the final conference, 2nd year doctoral students provided a detailed report on the work done, a schedule and diaries. This practice helped doctoral students to apply their theoretical knowledge and experience skills in practice, and more effective questions noted in the individual schedule plan were also mastered. As part of the research practice, doctoral students showed good results.

**Conclusion:** The doctoral students presented diaries and a schedule for a report on the research practice of 2nd-year doctoral students of the specialty D087-Environmental protection Technology.
