Report of the Department of Informatics on conducting research practice of undergraduates 2020-202-2021 academic year

30 On March 30 2021, 2019, the MS Teamsfinal conference on the research practice of 2nd-year undergraduates of the specialties 7M01511-Informatics, 7M01514-Technologies-Smart City and 7M01124-Pedagogical Measurements of the Department of Informatics was held on the MS Teams platform.

MSecond-year studentsof the 7M01511-Informatics and 7M01124-Pedagogical Measurements specializations were held online at the Department of Informatics of the L. N. Gumilyov ENU in accordance with the approved research practice plan for the 2020-2021 academic year. агистрантыStudents of the 2nd yearof specialty 7M01514-Technologies-Smart City completed their research internship online on the basis of Astana Innovations JSCand RSE at the Institute of Information and Computing Technologies of the Ministry of Education and Science of the Republic of Kazakhstan. Thus, undergraduates received positive feedback from professional practice managers, showed interest in both the methodology of describing business processes, and in the direct implementation and testing of a software product.

The conference was attended by members of the commission for the protection of practice reports, undergraduates, heads of pedagogical practice, as well as their teachers of the department. Reports of undergraduates of the department and assessments of their scientific supervisors were listened to. At the conference, undergraduates presented a detailed report on their research practice in the form of presentations in Power Point.

The internship of undergraduates was held in a remote format on the MS Teams and Zoom platforms. On these platforms, undergraduates and their supervisors worked out the theoretical concepts of the master's thesis and analyzed the practical part.

During the internship, undergraduates acquiredand practicallydeveloped the skillof both planning scientific work and systematic analysis of the scientific and methodological information base on the subject of research, experience in research activities of a teacher, and observed safety regulations.

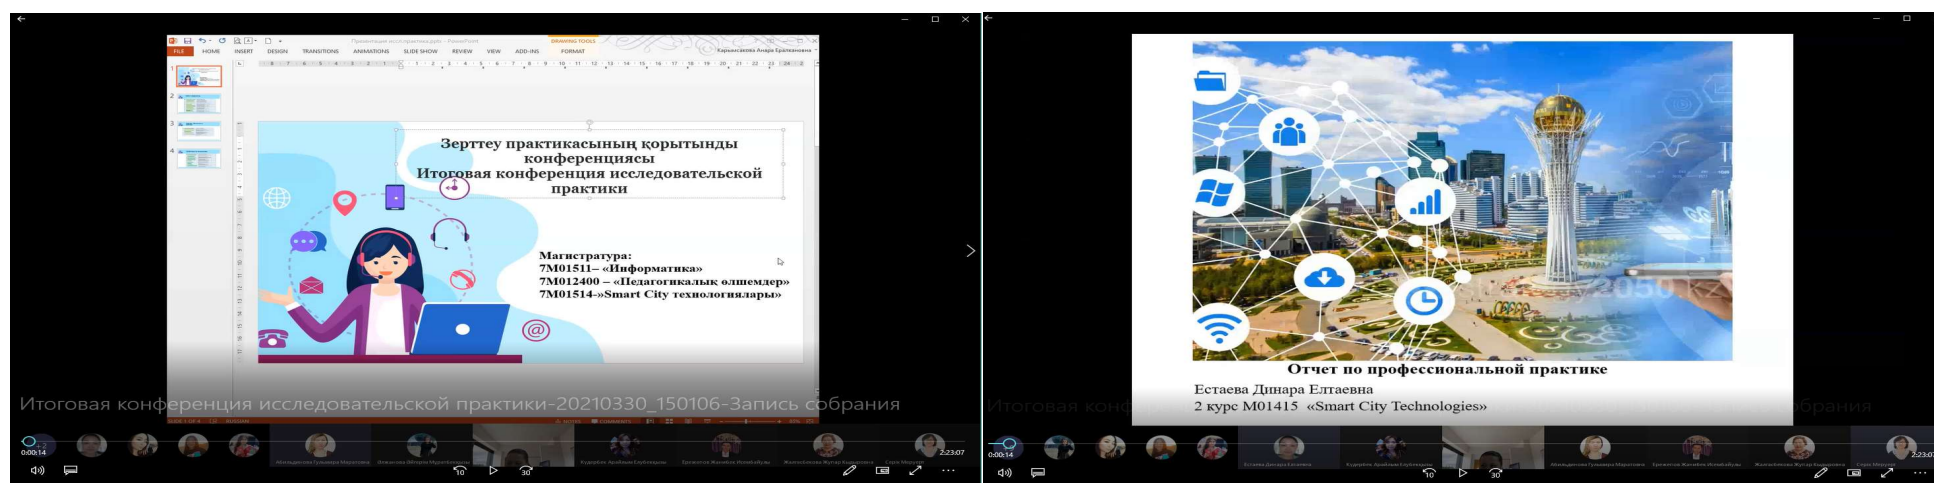

At the end of the final conference, the results were carriedout. Undergraduates expressed their gratitude to their supervisors and teachers for mentoring and helping при them complete their research internship.

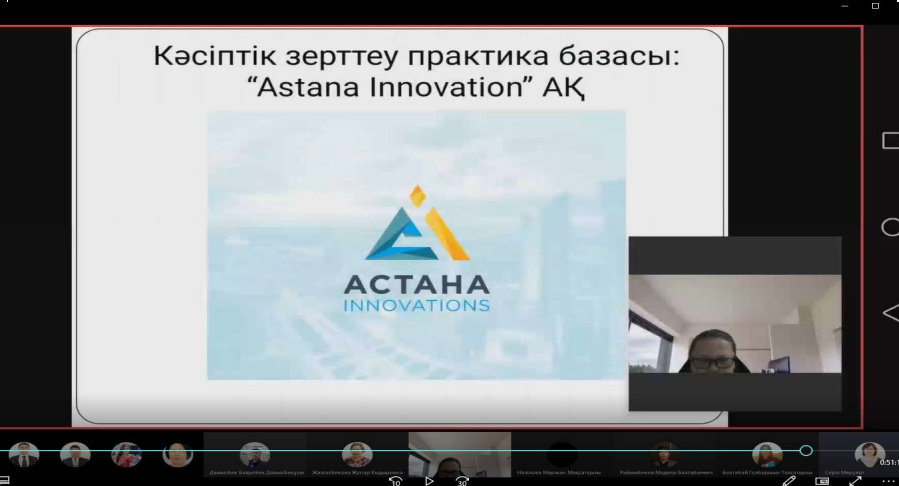

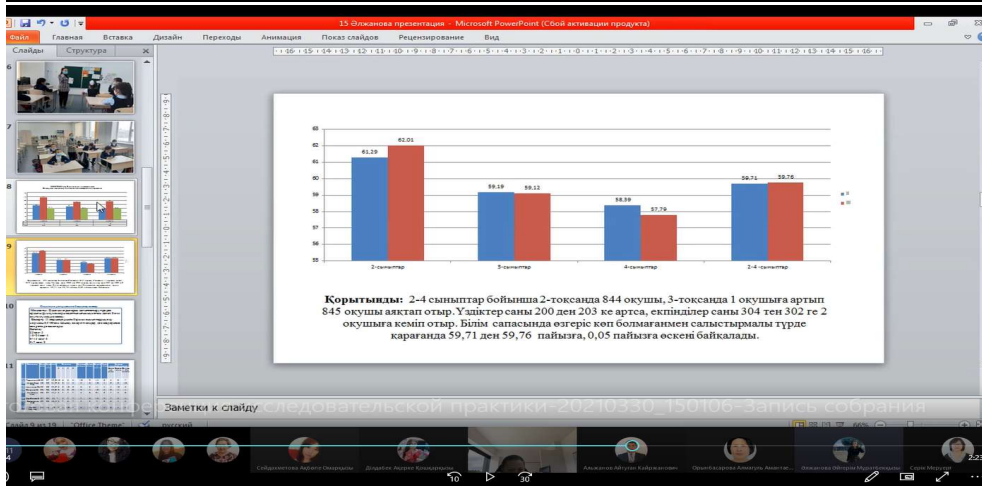

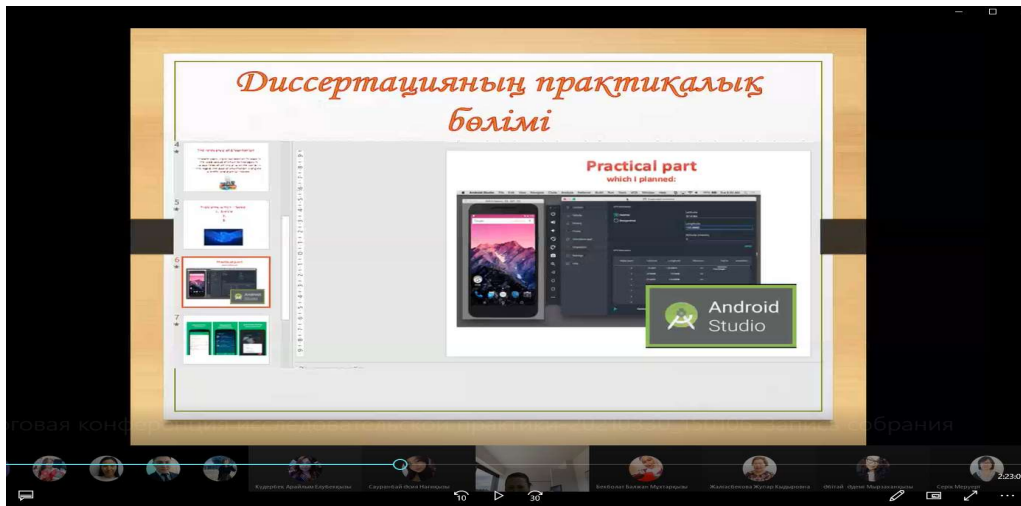

The average teaching practice score was 92 points, academic performance and quality of 100%.
