

In connection with the Erasmus Days on October 15, 2021, an exhibition of projects within the framework of Increasing the potential of higher education, as well as an information day on the Erasmus+ credit mobility program, was held at the L.N.Gumilev ENU. The exhibition was attended by all interested persons, including coordinators for international cooperation, teaching staff and students of the faculty.

The Erasmus Days exhibition is a continuation of the previous stage of the Erasmus+ Program and the beginning of a new stage.

The purpose of the exhibition:

- familiarization of the general public with the achievements and results of projects;
- - organization of practical sessions (trainings) to disseminate the results of projects with the active involvement of participants;
- demonstration of the impact of projects at the individual, institutional and national levels.

Members of the project group "Integrated Approach to STEM teacher Training" presented information about STEM education on the poster, information materials on STEM education, booklets of the educational program "7M01511- Informatics", certificates of participation of teaching staff in various conferences, seminars and festivals were also presented.

The exhibition will be an opportunity to promote the idea of the project, establish contacts with new partners.
